Why Sorbonne University Abu Dhabi?

In today’s fast-paced and globalised economies, knowledge and languages both serve an important role in creating progressive and vibrant societies. The French education system is known for its high level of rigorous critical thinking and debating skills, which play a significant role in developing future pioneers and leaders.

Sorbonne Abu Dhabi is a globally recognised education institution that serves as a bridge between civilisations by offering a multicultural environment, which promotes and develops a strong culture of tolerance, curiosity, harmony and cultural awareness for today’s modern economy. Students have access to internationally acclaimed faculty, world-class facilities and internationally certified degrees, which places them firmly on the right path in preparation for a successful career.

This degree is officially accredited by the UAE Commission for Academic Accreditation (www.caa.ae).

February 2020
The Bachelor in Geography and Planning is an exclusive three-year degree and combines a solid foundation in physical, human and regional geography with further opportunities in other social and natural sciences.

This programme was created to provide the requisite scientific knowledge, concepts and methodologies for students to fully understand all aspects of the modern world, establish links between academic knowledge and the needs of sustainable development, locally and globally.

The curriculum focuses on professional work experience by offering numerous opportunities for internships locally and abroad in the fields of urbanism, sustainable development, risk management and territorial expertise.

The first two years are devoted to earth environment (relief, hydrography and climate) and society spaces (from culture to economy). During the third year, students strengthen their skills with case studies (Asia, Middle East and Europe) and thematic courses (risks, logistics and transport, humanitarian and urbanism).

Students learn how to use and leverage professional cartography and data management tools: remote sensing, statistical data processing, geographical information system. A computing lab and individual tutoring sessions are available to students.

By the end of the programme, students will be able to understand major territorial stakes such as the environmental impacts of societies, urbanism, sustainable development, social inequalities, economic and tourism development and heritage protection.

The programme faculty are all internationally renowned professors whose teaching methodology goes beyond the traditional forms of teaching to ensure a balanced and well-rounded learning experience.

The curriculum follows the European ECTS system and the degree is delivered by Sorbonne University in Paris.

### Admission requirements

To be eligible for this Bachelor’s degree, students must have the following:

- French Baccalauréate with a minimum final average of 12/20 or High School Diploma with a minimum B0% average (or equivalent).
- French Aptitude Certificate: minimum score of B2 level (accepted certificates: DU issued by Sorbonne University, DELF, TEF, TCF and SELFEE). Students with a French Baccalauréate are exempted from the language proficiency exam**.

**Students not meeting this requirement may be accepted following a review of high school subject results, supporting exams scores and a student’s personal statement.

**Students not meeting the required French Aptitude Certificate will be admitted conditionally in the programme, subject to passing a Foundation Programme in the French Language (French Intensive Course).

### Career prospects

The Bachelor in Geography and Planning helps students launch successful careers in various fields. A geographer’s skills of building, analysing and communicating an expertise on a territory is sought after in various professional sectors.

In the main, employment opportunities exist in planning, management, architectural firms, environment management agencies, geopolitics, tourism and international relations and transport and logistics. Some of our graduates enjoy rewarding careers locally and abroad in public institutions including ADEK, the UAE Ministry of Foreign Affairs and International Cooperation, the Ministry of Climate Change and Environment and the Department of Culture and Tourism or Department of Urban Planning and Municipalities.

This degree provides graduates with several options to pursue further academic studies at Sorbonne Abu Dhabi and other overseas institutions.

### Tuition Fees

Tuition Fees (including admin. fees - over 3 years)

| AED | 215,100 (approximately US$ 58,615) |
