

Position Title	Part-Time Instructor in Statistics – Enseignant part-time en statistiques
Department	History
Job Code	HR/04-2020

Job Description

The candidate will be expected to teach undergraduate courses in Mathematics and Statistics. The successful candidate will teach an introductory course in descriptive statistics and data science to non-specialized first-year students enrolled in the BA in Records Management and Archival Science. Courses are delivered exclusively in English and follow the European Credit Transfer System (ECTS). Duties will include teaching lecture and tutorials, developing course material. The candidate will report to the Head of Department.

Teaching hours and responsibilities

- Teach undergraduate courses, including lectures and tutorials. It is expected to accompany the lectures with a large number of illustrative examples with the use of basic statistics packages such as Excel, SPSS.
- Deliver courses exclusively in English following the European Credit Transfer System (ECTS).
- Periodically assess the level of the students (quizzes, reports, continuous assessment, mid-term and final exams).

Any other responsibility relevant to the position.

Profile (Minimum Qualifications, Minimum Experience, Job Specific Skills)

Minimum Qualifications:

- Master's degree or preferably PhD holders in Mathematics, Statistics, Data Science or a related field is required.

Minimum Experience:

- Experience teaching mathematics at the undergraduate level is mandatory.
