## HISTORY

In 1257, in Paris, Robert de Sorbon brought together students and teachers to establish what was then called a Universitas (Community) and settled it in the centre of Paris. This Universitas played a central role in making the city an important cultural and scientific centre of Europe. Sorbonne Université is one of the oldest and most prestigious universities in the world, and its buildings are still standing on the very site of the first foundation, in the heart of what is known as the Quartier Latin, in reference to its history. A centre of excellence, it is devoted to studies and research in the fields of Humanities, Sciences and Medicine. The unparalleled teaching of its professors has created generations of intellectuals and decision makers, with an open-minded view of the world.

Today Sorbonne Université has 55,300 students and 6,400 teachers who play a role in making it internationally renowned, carrying out research at the very highest level.

In 2006, Paris-Sorbonne University Abu Dhabi opened in the capital of the UAE as a result of an agreement between the Abu Dhabi government and Paris-Sorbonne Université. A University in which the curricula, the methods, as well as the spirit are identical to those developed in France. In addition to its main field, the Humanities, it added degrees in Law and Economics as well as Sciences, thanks to partnerships with two other internationally recognized Universities, Paris Descartes University, and Pierre et Marie Curie University. In 2018, Paris-Sorbonne University and Pierre and Marie Curie University merged to give birth to Sorbonne Université. Sorbonne is now well-positioned as a multidisciplinary research-intensive university offering a wide disciplinary range in arts, humanities, social sciences, natural sciences, engineering, and medicine. The merger also resulted in the change of name of Paris Sorbonne University Abu Dhabi to Sorbonne University Abu Dhabi. At the same time, Université Paris Descartes became Université de Paris.

Sorbonne University Abu Dhabi is therefore the combination of such heritage and spirit of innovation. Visiting Professors come from France to deliver some of the courses. This is conducive to the exchange, enrichment, and discovery of ideas. It is the guarantee that the level of the degree is the same as in Paris.

## SUAD VISION AND MISSION

**UNIVERSITY VISION:** To create and maintain a university in which, for the benefit of the UAE and the world, the core competencies and rich heritage of Sorbonne University in Paris stimulate intellectual excellence, innovation, critical thinking, harmonization of cultures, and development of knowledge.

**UNIVERSITY MISSION:** Sorbonne University Abu Dhabi is committed to the renowned excellence and worldwide recognition in Francophone education. Assimilated in the UAE national context, it is an exceptional model of learning and knowledge development that aims to create global leaders and thinkers and promote dialogue of cultures and civilizations.

## UNIVERSITY GOVERNANCE

Sorbonne University Abu Dhabi's governance structure has two principal bodies: The Board of Trustees and The Executive Committee.

The Board is the highest governing authority and is responsible for achieving the University's goals and objectives through its actions. The Board has ten members approved by the Chairman of the Executive Council of the Emirate. The Board delegates responsibilities to the Executive Committee (EC) to ensure the efficient conduct of university affairs.

EC members consist of the Sorbonne University President (as Chair of the EC); the Sorbonne University Vice-President for International Development, the Sorbonne University Vice-President for Life-long Learning; the Vice-President of Sorbonne University for Research: the Deans of the three Sorbonne University faculties; the Vice Chancellor of SUAD, the Deputy Vice Chancellors of SUAD for Academic Affairs and for Administrative Affairs; a representative of the Abu Dhabi Department for Education and Knowledge (ADEK), and advisors of the President of the Board.

## FINANCIAL RESOURCES

Sorbonne University Abu Dhabi is a not-for-profit institution. The Government of Abu Dhabi supports all financial needs of the University.

## STUDENT VISA FOR INTERNATIONAL STUDENTS

Sorbonne University Abu Dhabi is your sponsor. It is our responsibility to ensure that your stay in Abu Dhabi is legal and that you have your:

- » Residency visa
- » Emirates ID card, and

Student visas are valid for twelve (12) months and, therefore, you will require visa renewals during your period of study at the university. In order to avoid any financial penalties or administrative blocks, do not delay the renewal process. If you wish to apply for a driving license or a visa to visit another country, contact the Student Visa Office at the University. On request, you will be issued a No-objection letter, which is a mandatory document required by local authorities and embassies in the UAE. The Student Visa Office is housed within the Enrollment and Registration Center.

## STUDENT VISA FOR APPLICANTS FROM GCC COUNTRIES (THE UNITED ARAB EMIRATES, SAUDI ARABIA, KUWAIT, QATAR, BAHRAIN, AND OMAN)

Students from GCC countries (residents) do not require a student visa to enter or live in the UAE. However, they need to apply for Emirates ID and Health Insurance. Approach the Student Visa Office on arrival at the campus.

## FIRST MANDATORY STEPS

Our academic and administrative staff will be your trusted guide in assisting you and reassuring your safety and comfort on campus, in addition to helping you succeed with your academic courses. Once you arrive on campus, kindly ensure you attend to the following:

- » Apply for Emirates ID as the medical tests during the first week of your arrival in the UAE. The Emirates ID is a precursory requirement for obtaining your visa and medical insurance
- » You are automatically covered for accidents on and off campus, and during any events or trips sponsored by the University. However, it is compulsory for all students, including GCC citizens, and Sorbonne University Abu Dhabi sponsored students to apply for Student Medical Insurance. The medical insurance is renewed on an annual basis

- » Enquire about picking a mobile/data package. There are plenty of options- pre-paid, postpaid, tourist, resident, local minutes, or international minutes- it all depends on your needs. Contact the Student Visa Office ([Visaoffice@sorbonne.ae](mailto:Visaoffice@sorbonne.ae)) for more information.

Your Identification Card is issued with AED 50 credit for printing. Should you require extra credit, contact the Finance Department to add credit using your own funds. In keeping with its goal of sustainable development, Sorbonne University Abu Dhabi strongly encourages its students to use electronic documents whenever possible. Your Blackboard platform has flyers, brochures, leaflets, and other academic documents distributed by your professors. Always keep your Identification Card with you and present it to the security during entry/exit or on demand. Identification Cards may also be requested for library book check-out and other services.

The Center will endeavor to process all requests within two working days.

## FINANCIAL MATTERS - TUITION FEES

Tuition and other fees (administrative) are due upon registration to a programme. The tuition fee is fixed for the duration of the student's selected programme. Other fees may include, and are not limited to books, or accommodation fees. The Finance Department at Sorbonne University Abu Dhabi is responsible for collecting tuition fee and all other payments. ## TUITION LANGUAGES

### Bachelor programmes

Some Bachelor programmes are taught in French, others are taught in English, some require knowledge of Arabic.

To enter the Bachelor in Records Management and Archival studies, in addition to requirements specific to the programme, students should have a language certification in English (minimum EMSAT-English score of 1250, or IBT TOEFL: 71; or IELTS: 5.5) and in Arabic (minimum average of 75% in the Arabic subject in High School). Depending on their level, may also have to take the Foundation year in Records Management and Archival studies.

To enter the Bachelor in Physics or the Bachelor in Mathematics, specialization in Data Science for Artificial Intelligence, in addition to requirements specific to the programmes, students should have a language certification in English (minimum EMSAT-English score of 1250, or IBT TOEFL: 71; or IELTS: 5.5). Depending on their level and background, students applying for a Bachelor programme may have to take the Foundation year in science.

To enter an undergraduate programme offered in French, in addition to requirements specific to each programme, students should have, a French Baccalaureate or a French Aptitude Certificate (accepted certificates: DU issued by Sorbonne University, DELF B2, TEF, TCF and SELFEE). For students who do not speak French, this level can also be achieved by following the "French Intensive" (FLE) Foundation year at the University, which is normally a one-year programme extendable to two years, if necessary.

There are 5 categories of FLE programmes:

- » One semester morning programme (January intake)
- » One-year morning programme (starting in September)
- » One-year and a half morning programme (starting in January)
- » Two-year morning programme (starting in September)
- » Two-year evening programme (starting in September)

The FLE evening classes are specifically designed for students who are undertaking a professional activity.

### Postgraduate programmes

All postgraduate programmes, with the exception of one (Master in Teaching French as a Foreign Language), are taught in English. A language aptitude certification is required as per each major specification.

## ACADEMIC YEAR AND SEMESTERS

The academic year starts in September and ends in June. It consists of two semesters (September to mid-January for Semester 1 and mid-January to June for Semester 2). Depending on the years, on in link with their delivery format, some programmes may start in January (FLE 1 semester and FLE 1.5 years: Master Marketing, Management, Communication, Media).

The start date of all the programmes for 2022-2023 is indicated in the academic calendars (see Section 1 above).

### REGISTERING FOR COURSES "INSCRIPTIONS PÉDAGOGIQUES"

According to the French academic system, most courses are inherited from the structure of the programme and are mandatory. Elective courses are called optional courses (e.g. languages, sports etc.) and must be chosen from the relevant academic department during the first week of each semester.

The list of optional courses available and the procedure to choose them is explained to students by their Academic Coordinators. Students are then registered in the mandatory and optional courses: this process is done by the Admissions Department and students are not required to take any further steps unless a change of Major is declared.

Optional courses require as much dedication as other core courses and should not be taken lightly. You are permitted to add, drop, or change elective courses only and within the add-drop period at the start of the semester. As languages require long-term dedication and effort, please note that your choice of language courses restricts any change until you successfully pass the highest level of the language you have first chosen.

### THE FRENCH GRADING SYSTEM

The French grading system ranges from 0 to 20. Because of high academic standards maintained by the University, scoring a grade of 16 out of 20 is occasional. It is considered exceptional to achieve a grade of 18 or more.

The French system may be difficult to understand if you followed the American or the British model of education earlier. In order to facilitate its understanding and comparison with these systems, the University has established an equivalence table as shown below:

French system			American system		British system		
Mentions	Notes	Letter Grade	Numerical	GPA	Mentions	Numerical	Classification
Très Bien *	20	A+	95-100	4	Excellent	70-100	First Class Honours
	19	A+		4	Excellent		
	18	A+		3.9	Excellent		
	17	A+		3.7	Excellent		
	16	A		3.6	Excellent		
Bien *	15	B+	90-94	3.4	Excellent	60-69	First Division Second Class Honours (2.1)
	14	B+		3.3	Excellent		
Assez Bien *	13	B	85-89	3.2	Good		
	12	B		3	Good		
Passable	11	C+	80-84	2.9	Satisfactory	55-59	Second Division Second Class Honours (2.2)
	10	C		2	Pass	40-49.9	Third Class
Fail	9	C-	70-79	1.8	Poor	36-39.9	Pass/Fail
	8	C-		1.6	Poor

	4	E			Very poor		
	3	E			Very poor		
	2	E			Very poor		
	1	E			Very poor		
	0	E			Very poor		

\*Universities may use different policies for these "mentions". It is the case for the Law and Economics Department of The University Paris Cité, which gives a mention of Excellent: 18/20 and above in some programmes.

## ATTENDANCE AND WORKING STUDENTS

All diplomas offered by Sorbonne University Abu Dhabi are based on you being physically present as the core teaching method is grounded in face-to-face teaching, which includes an important part of knowledge delivery and assessments done during the course. Most of the courses are, indeed, evaluated by a mix of assessments during the course itself - a system known as "Contrôle Continu" (CC) such as exposés (oral presentations) or tests, and a final exam which takes place at the end of the semester. In class, students acquire knowledge, increase methodology skills, ask questions, learn from the others, etc. Therefore, attendance is mandatory to succeed.

Attendance is compulsory to all types of classes, including lectures, tutorials, labs, conferences, and class related activities. Students who do not comply with internal regulations on attendance will be required to meet with the Head of Department, alone and/or with family, and may be subject to disciplinary sanctions. In case a student's recorded attendance is less than 75% of the sessions of one course, the student may not be allowed to sit for the final exams of that course. If the student's average recorded attendance is less than 75% of the classes offered in the programme, the student can be dismissed from the programme.

Exception of attendance is permitted in some cases. Students who are unable to attend classes due to critical illness, injury, or other compelling medical reasons must contact their Head of Department directly to alert them to the situation. In such cases, all absences (25% or above) must be justified by producing a Medical Certificate issued by a Health Authority. Undergraduate students who are unable to attend classes due to current employment, should obtain an approval for absence. The student meets with the Head of Department to determine the best plan of his/her academic path. The case is brought to the Deputy Vice Chancellor for Academic Affairs for approval. Work certificates should specify working days and hours and be renewed every 3 months; a general letter stating employment for the whole semester will not be accepted. It is the responsibility of the student to ensure faculty and admin staff are informed of the student's work commitments and mutually agree on the terms. There will be no reduction in tuition fees granted on the basis of the student's inability to attend classes and should be compensated by additional work determined for each course.

Due to their professional activities, attendance of Masters' students may follow specific rules, in agreement with the Head of Department of the programme.

## VALIDATION, PROGRESSION, GRADUATION RULES

Each University (Sorbonne Université, Université de Paris) and each Faculty has its specific rules, that's why the rules may differ from one programme to the other.

Each programme has its specific assessment's modalities. The evaluation plan for each course is communicated in the syllabus.

## FOUNDATION YEARS

### FOUNDATION YEAR IN SCIENCES

- » For each course, the Evaluation Plan is communicated in the syllabus
- » Validation of the semester: a student validates a semester if the weighted average of the grades obtained in the courses of the Fundamental Block is greater than or equal to 10/20 and if the weighted average of the grades obtained in the courses of that semester is greater than or equal to 10/20.
- » The Final grade for the Academic year is computed as the average of the grades obtained for each semester
- » Validation of the FYS: the FYS is validated if each semester is validated, and if the Final grade is greater than or equal to 10/20
- » Validating the FYS is the condition for a student to be admitted in the first year of the Bachelor (in Physics or in Mathematics): in case of failure in the FYS (Final grade below 10/20 and/or weighted average of the grades obtained in the courses of either —or both— of the Fundamental Blocks is below 10/20, the student cannot join the first year of the Bachelor
- » The FYS can be taken only once, so that failure to validate the FYS excludes the student definitively from the programme

#### » First and Second Session – definitions and policies:

Students can attempt to validate the FYS in two separate sessions. The first session results are obtained from the set of all the Assessments taken during and at the end of the course (Continuous Assessment, Final Examination and Laboratory Assessment, if applicable). If the FYS is not validated in the first session (Final grade below 10/20 and/or the weighted average of the grades obtained in the courses of either—or both— of the Fundamental Blocks is below 10/20) the student must take a Second Session Assessment for each one of the courses of the Fundamental Block which is not validated. The grade of the Second Session Assessment replaces the grade obtained in the course (except for the part of the grade assigned to the Laboratory Assessment, if applicable), even if the former is lower than the latter. A new overall grade is then computed for the course. In case of unjustified absence to a Second session Assessment, the grade awarded to this Assessment is a zero.

At this point, a new grade is computed for each semester. The Final grade for the Academic year is then computed again, taking into account the newly calculated grades for each semester. The FYS is validated if the grade obtained for each of the Fundamental Block is greater than or equal to 10/20, and if the Final grade is greater than or equal to 10/20.

Results obtained by each student in each subject, each semester and in the year, as a whole, become final, once officially validated by the Grade Validation Committee (G.V.C.), which emits an overall evaluation of each student's performance. The G.V.C. consists of the Head of Department of Sciences and Engineering, the Programme Head of the B.Sc. in Physics,

the Programme Head of the B.Sc. in Mathematics, specialization in Data Science for Artificial Intelligence, as well as of all the instructors intervening in the Foundation Year in Sciences. The G.V.C.'s decision is final and unappealable.

### FOUNDATION YEAR IN RECORDS MANAGEMENT AND ARCHIVAL SCIENCE

A course is validated if the weighted average of all the assessments of its Evaluation plan is greater than or equal to 10/20.

A semester is validated if the weighted average of the grades obtained to all the courses of that semester is greater than or equal to 10/20.

The final grade for the academic year is computed as the average of the grades obtained for both semesters. The FY RMAS is validated if the average is greater than or equal to 10/20 after the first exam session or after the catch up and jury points, if any.

If a student does not validate the Academic year after the First session (Final grade below 10/20), he/she must take a Second Session Assessment.

It is allowed to take Second session Assessment only for the failed courses (grade below 10/20) which are part of a failed semester (grade below 10/20 for the semester), provided a Second Session Assessment is offered for such courses.

In case of unjustified absence to a Second Session Assessment for a failed course, the grade awarded to this course is a zero.

The grade of the Second session Assessment replaces the grade obtained in the course, even if the former is lower than the latter. A new overall grade is then computed for the course.

After the second session, a new final average is computed for each semester. The final grade for the academic year is then computed again, taking into account the newly calculated grades for each semester. The FY RMAS is validated if the final grade is greater than or equal to 10/20.

All the results are reviewed by the jury at the end of each semester and after the second session and the PV is transmitted to the Registrar.

The "Jury" may add "Points de jury" depending on the academic profile of the students and under the condition that the global average obtained by the student for the semester, or the year is at least 9.8.

In case of a failure in the FY RMAS i.e.: a final grade below 10/20, the student will not be permitted to join the first year of the Bachelor and is also not allowed to retake the FY RMAS.

## FRENCH INTENSIVE (FLE) PROGRAMMES

Students enrolled in FLE (Intensive French) programmes are required to obtain the passing score at the DU (University Diploma) exam in June or in August for enrollment to any Bachelor programme in the French Language at SUAD.

### I. FLE - DAY PROGRAMME - 1 SEMESTER (JANUARY INTAKE)

Advanced students who are enrolled in the 1.5 Year programme (see section C) may sit the DU in June Y1 or in August Y1. If they successfully pass the DU exams, they can enter a Bachelor programme taught in French the next academic year, after one semester of Intensive French only.

### II. FLE - DAY PROGRAMME - 1 YEAR

The academic year of FLE (Foundation Year in Intensive French) Day Programme – 1 year consists of 2 semesters (Fall and Spring).  
The assessment includes:

- » The 1st semester continuous assessment
- » The Mi-DU (mid-term) exam in January at the end of the first semester (Fall)
- » The 2nd semester continuous assessment
- » The DU (University Diploma) exam at the end of the second semester (Spring)

Students who fail to pass the year in June will have a second chance to retake the DU exam in August.

**Attendance Policy:** Students with more than 25% of overall absences per year must provide supporting documents to justify their absences, otherwise they sit the DU of August. Student's Attendance is reflected in the FLE transcript of each semester.

### A . FINAL MARK OF THE PROGRAMME AFTER THE JUNE DU SESSION

**The final Mark of the year is the average of:**

1. The DU grade (June session) and
2. The Continuous Assessment Final Mark

In the event the DU average is greater than the Continuous Assessment Final Mark, the DU average will be considered as the Final Mark.  
The passing grade is 10 out of 20

### 1. DU grade:

The DU average is the average sum of all exams with the correspondent coefficient in place.  
**Eliminatory grades:** students must sit all the exams of the DU. All students must have a mark greater or equal to 6.00/20 to each one of the exams. Any grade below 6.00/20 is considered **eliminatory**. In case a student is absent from an exam his or her grade in this subject will be equal to "0.00".

### 2. Continuous Assessment Final Mark

**The continuous Assessment Final Mark** is the average of:

- a. The Semester 1 Final Mark and

- » **Mi-DU Exam Average grade:** Mi-DU Exam Average grade is the average sum of all exams with the correspondent coefficient in place.

### b. Continuous Assessment Semester 2 (Spring) grade:

The average of the sum of all subjects proposed by the curriculum and taken by the FLE students during the semester, weighted by their coefficients, forms the Continuous Assessment Average mark of the semester

The bonus grade for Sports and CinéFLE and FLE Social Média (elective courses) are added accordingly, applying the same calculation as for the Sports classes, semester 1.

## B. FINAL MARK OF THE PROGRAMME AFTER THE CATCH-UP SESSION

If a student fails the year after the DU exams in June, he or she will be granted a second attempt to sit the DU exams in August as a catch-up exam session. In this case the DU August average is considered as the only Final Mark of the year. No other grades are taken into consideration. The DU August Average grade is determined as the average sum of all exams with the correspondent coefficient in place. The passing grade is 10 out of 20

### BACHELOR PROGRAMMES

#### Rules of Sorbonne University's Faculty of Humanities

A bachelor programme is organized over 6 semesters (S1, S2, S3, S4, S5, S6) of 30 credits each (European credits and Transfer System) spread over 3 years (L1, L2, L3).

Each semester is made of UEs (Unités d'enseignement: Teaching units) and some UEs are made of ECs (Eléments constitutifs: Constituent elements). A UE can be validated at each period in which it is taught. To be awarded a minimum grade of 10 out of 20 means successfully achieving one EC, or UE, or semester. Achievement can, however, be obtained by compensation

- » A UE is validated if the average of its ECs is a minimum of 10 out of 20. This validation can be the result of passing all ECs related to a UE or be obtained by compensation between these ECs
- » A semester is validated if its average is a minimum of 10 out of 20. This validation can be the result of passing all UEs related to the semester or be obtained by compensation between these UEs
- » A year of study is validated if the annual average of both semesters constituting the same academic level is a minimum of 10 out of 20. This validation can be the result of the validation of these two semesters by passing them both or by compensation between them

Compensation cannot occur between EC of different UEs, UEs of different semesters or semesters of different years of study.

There is three possible assessment modalities: for each UE and ECs, the relevant modality is specified in the syllabus of the course:

- » Integral continuous assessment (CC): it consists of several assignments, works or exams (at least two) made during the semester. There is no final exam nor catch-up exam
- » Mixed assessment (CC+ CT): it is made of evaluations done throughout the semester and a final exam at the end of the semester. There is a catch-up session.
- » Final assessment (CT): there is only one exam per EC or UE or group of UEs at the end of the semester. There is a catch-up session.

In case of absence at a CC evaluation, and in case the absence is considered justified by the Head of department, on the basis of supporting documents, another session can be organized if the absence is unjustified, no other session will be organized and the grade will be 0.

In case of absence at a CT no replacement exam is organized beside the exams of the 1st session and the catch-up session: and the grade is zero.

There is no eliminatory grade.

If the annual average of a year of study is less than 10 out of 20 after the first exam session (January for the S1; May for the S2), student must retake the failed UE/EC (evaluated at the first session) of each failed semester at the make-up session (in June/July for both semesters), with the following conditions:

- » Within one failed semester, all validated UEs (or ECs of a validated UE) are not to be repeated, even to improve results
- » For non-validated UEs, only ECs below 10 are to be repeated
- » Absence at the make-up session leads to a replacement of the previous grade by an ABI (Absence injustifiée: unjustified absence) it means a 0 out of 20.

Following the make-up session, the notes of the catch-up session replace that of the initial session (even if they are not better than the previous one) and the average is calculated. You can either validate all the semesters, or only one of them, or fail both.

In case the UE fully evaluated through CC and the final average of the year of study is less than 10 out of 20, the student will have to retake the failed UE and/or EC the next year.

You can move to the next level of the Licence by validating both semesters of the current year, either by achieving a minimum average of 10 out of 20 in each semester or by compensation. Students may also pass to the next level without having completed all the UEs. In this situation (in debt/AJAC), students are enrolled simultaneously in two consecutive years of the same programme. The minimal conditions to be authorized to continue in case you did not validate all the semesters of the previous years:

- » to register in S3 you should have obtained S1 and/or S2
- » to continue in S4, you must validate at least two of the three previous semesters
- » to continue in S5 you must validate year one and either S3 or S4: the student cannot pass to the third year, if both S1 and S2 are not validated even if he validates S3 and S4
- » to continue in S6 you should have validated S1 and S2 and at least two semesters among S3, S4 and S5

In those cases, students must register for and validate the missing UEs during the following year. Students should discuss with their Academic Coordinator and/or the Head of Department in order to understand exactly what remains to be validated.

Graduating at the end of the third year of Licence requires successful completion of the six semesters (S1, S2, S3, S4, S5, and S6), directly or by compensation, as explained above.

There is no eliminatory grade. Once validated, one UE and the related ECTS (credits) are definitively acquired. In case the UE has not been validated, any EC grade higher or equal to 10/20 can be kept for maximum four years from when they are obtained.

Based on the average of the results obtained after completion of the 6 semesters of the Bachelor Programme, the degree issued will include the below information:

- » "Assez bien" ("Fairly good") when the diploma result is between 12 and 13.99 out of 20
- » "Bien", ("Good") when the diploma result is between 14 and 15.99 out of 20
- » "Très bien" ("Very good") when the diploma result is equal to or greater than 16 out of 20

### Rules of Sorbonne University's Faculty of Sciences and Engineering

To obtain their Bachelor's degree, students follow a course divided in 6 pedagogical semesters (S1, S2, S3, S4, S5, S6), grouped in 3 pedagogical years (L1, L2, L3).

The curriculum is broken down into teaching units (Unités d'enseignement, UE). Each teaching unit corresponds to a coherent set of lessons and represents a set of skills,

knowledge and/or know-how. Each UE is assigned a number of credits (ECTS) proportional to the total volume of activities that a student who follows this UE must provide. Each teaching semester totalizes 30 ECTS. Six semesters of 30 credits or 180 ECTS in total are necessary to validate a Bachelor.

All the UEs (except internships or special projects or OIP) are evaluated through CC (continuous assessments) only: it consists of several evaluation being done during the semester. If the semester is not validated, there is a second chance for each failed UE (except internship or special projects, or OIP).

There is no eliminatory grade.

### **Validation of UEs**

A UE can be validated at each period in which it is taught.

The validation of a UE can be obtained in two different ways:

- » If the average of all the marks taken into account for this UE, affected by their respective coefficient, is greater than or equal to 10 out of 20
- » by decision of the jury (semester or annual compensation, or points de jury)

### **Validation of semesters**

A semester can be validated in four different ways

- » By acquisition of all the UEs constituting the semester
- » By semester compensation, when at least one of the UE of the semester is not acquired, but that the general average of the semester (of all the constituent UE of the semester affected by their respective coefficient) is greater than or equal to 10 out of 20. The credits associated with the UE not acquired this semester are then acquired
- » By annual compensation, when the average of the two semesters of the academic year is greater than or equal to 10 out of 20. The credits associated with the UE not acquired in one of these semesters are then acquired
- » By decision of the Jury, when the average of the two constitutive semesters of the teaching year is less than 10 out of 20

Half-yearly compensation is made at the end of the period on the 30 credits relating to the teaching units constituting the semester. All teaching units registered in the semester teaching contract participate in the compensation. In the event that the student, in agreement with the training department in which s/he is registered, has prepared during this period for more than 30 credits, the compensation is then made on the 30 credits of the semester educational contract, the UE additional not provided for in the semester teaching contract do not enter into the compensation.

The compensation between semester is made at the end of the teaching year, after the initial assessments, then, if necessary, at the end of the second chance. The score is calculated for an

academic year and the compensation of semesters of 2 different programme years (L1 and L2 for example) does not arise.

### **Second chance assessment**

If a semester is not validated, nor compensated after the initial assessments of both semesters have taken place, a second chance is offered for any teaching unit not acquired (except internship, special projects and OIP). In the event of non-attendance at the second chance, the results of the initial assessment are kept.

At the end of the second chance, the marks of the initial tests which were not subject to the second chance are retained. The marks of the initial test which have been subject to the second chance are replaced by the second chance note when this score is higher, taking into account the respective coefficient, and otherwise are kept. The semester is validated if the average is at least 10 out of 20, or by compensation with the other semester, or by jury points.

A student can waive the semester or the annual compensation in order to improve his average. He/she must notify the Head of the academic department in writings within two working days of the publication of the results of the initial assessment. In this case, he/she is declared not admitted and h/she must pass all the "second chance assessments" of the UEs not acquired during the initial assessment.

### **Progression to the next pedagogical year**

To enter the next level, the student should have validated the year, either directly, or by compensation between the two semesters. A student cannot be enrolled simultaneously in teaching units of two different pedagogical years of the programme (for example: S1 and S3, S2 and S4 etc.).

Each UE validated, either by achieving 10 out of 20 or by compensation or by decision of the jury is definitively acquired, as well as the related ECTS.

If a student repeats only one of the two semesters, the results of the validated semester are taken into account in the validation process of the year of repetition.

When a UE is not validated at the end of the academic year, its grade is lost in totality.

If they are greater than or equal to 12 out of 20, the marks assessing the practical skills, the internships, the projects, and bibliographic research are kept for one year.

No grade is eliminatory.

### **Validation of the degree**

The Bachelor degree is obtained by validating each of the six semesters of the programme, after possible application of the rules of compensation and decision of the jury.

Mentions "passable", "fairly good", "good", "very good" are awarded by the jury of the degree, based on the average of the last two semesters of the diploma.

### Rules of the University of Paris Faculty of Law, Economics and Management

A bachelor programme is organized over 6 semesters (S1, S2, S3, S4, S5, S6) of 30 credits each (European credits and Transfer System) spread over 3 years (L1, L2, L3).

The curriculum is made of "fundamental teaching units" and other teaching units, both clearly identified in the structure of the programme.

#### Validation of UEs

A UE whose score is greater than or equal to 10/20 is definitively acquired and capitalizable.

The fundamental teaching units of one semester are definitively acquired by compensation if the global average in the block formed by these fundamental UEs, weighted by their coefficient, is greater than or equal to 10/ 20: or by compensation between the blocks of fundamental UEs of the two semesters of the same pedagogical year.

All teaching units of a validated semester are definitively acquired.

The acquisition of the teaching units entails the acquisition of the corresponding ECTS.

#### Validation of semesters

A semester is obtained and validated under the two following cumulative conditions:

- » Obtain, for the block formed by the fundamental units an overall average, weighted by the coefficients of the UEs, equal to or greater than 10/ 20; or obtain for the blocks of fundamental units of the two semesters of the same pedagogical year and overall average of at least 10/20
- » Obtain, for all the UEs constituting the semester, an overall weighted average equal to or greater than 10/20

The validation of the semester entails the acquisition of 30 ECTS

#### Validation of the year

The year is obtained under the two following cumulative conditions:

- » The average of the two semester blocks of fundamental UE is greater than or equal to 10/20
- » The average of the two semesters is greater than or equal to 10/20

The validation of the year entails the acquisition of the corresponding ECTS (60 ECTS)

#### Progression to the upper year

The student who has validated the 60 ECTS of the study year is registered in the upper year of the diploma.

A student who failed to validate the year is authorized to continue in the upper year of the programme as AJAC if and only if he/she fulfills the two following conditions:

- » Have validated at least 48 ECTS out of the 60 ECTS of the current year
- » Have validated the block of fundamental units of each semester of the current year

AJAC students must repeat all the failed units.

No enrollment in L3 is authorized until the two semesters of the L1 are validated

#### Validation of the degree

The Bachelor's degree is obtained when all 3 years have been validated. The total of ECTS acquired is 180.

The validation of the units, the semesters, the years, and the degree, direct or by compensation, is verified by the jury.

#### Mentions

Mentions are awarded by semester, by year and by degree

- » "Passable" is awarded to students who have validated the year and whose overall weighted average is greater than 10/20
- » "Assez Bien" ("Fairly good") is awarded to students who have validated the year and whose overall weighted average is greater than 12/20

### Second session

The control of the acquisition of knowledge is done within the framework of a first session of evaluation. Students who do not validate the year in the first session have the right to participate in a second session. Following the make-up session, the notes of the second session replace that of the initial session if they are better than the grades obtained for the same UE at the first session. The average is recalculated, according to the respective coefficient of the courses and UEs.

## POSTGRADUATE PROGRAMMES

Master programmes are typically 4-semester programmes, totaling 120 ECTS.

SUAD offers one Master with specific delivery format: the Master in Marketing, Management, Communication, Media: being a M2, students are directly admitted in the second year and are granted the equivalency of the 1st year. The total of ECTS is 120. The programme is offered over three semesters.

### Master's Progression rules

Each programme has its specific assessment modalities. Kindly refer to your Academic Coordinator or to the Catalogue of the courses and the syllabi of the courses.

### Validation of UEs

A UE is validated if the average of its EC (if any), weighted by their respective coefficient, is a minimum of 10 out of 20. This validation can be the result of passing all ECs related to the UE or be obtained by compensation between ECs. Compensation cannot occur between ECs of different UE. For UEs that are not made of EC, the UE is validated if the average of all assessments of the UE, weighted by their respective coefficient, is a minimum of 10 out of 20.

Once a UE is validated it is definitively acquired, as well as the corresponding ECTS.

### Validation of semesters

A semester is validated if the average of its UEs weighted by their respective coefficient, is a minimum of 10 out of 20. This validation can be the result of passing all UEs or be obtained by compensation between UEs. Compensation cannot occur between UEs of different semesters.

### Validation of a year of study

A year of study is validated if the average of both semesters constituting the same academic level is a minimum of 10 out of 20. This validation can be the result of passing both semester or be obtained by compensation between them.

### Progression to the upper level

Students can move to M2 only by validating the M1.

### Validation of the degree

The degree is obtained by validating each of the years. No compensation occurs between different pedagogical years.

There is no eliminatory grade.

Depending on their specific rules, Master's programmes may or may not have Final exam and catch-up sessions. Kindly refer to your Academic Coordinator and to the Catalogue and syllabi of the courses.

Catch-up session general rules of SU Faculty of Humanities

- Catch-up sessions grades replace the grades of the failed courses and the weighted average is recalculated.
- In case a student is absent at the catch-up session, the grade is 0.

The respective part of each assessment in the calculation of the CC average depends on the course and is determined by the instructor; the respective part of CC and CT in the calculation of the UE's average depends on your programme's rules. The assessments modalities are explained in the course's syllabus.

## CHEATING AND PLAGIARISM

The value of your degree relies on the seriousness in which assessments and exams are conducted. Sorbonne University Abu Dhabi is determined to fight any kind of fraud and cheating. Cheating or plagiarism in exams or any kind of assessment may lead to serious consequences and should be avoided.

It is your responsibility to bring only authorized material for your exam, to read exams rules and regulations, as well as the student code of conduct, notably the section related to "Academic misconduct" and to strictly abide by these rules for every kind of assessment (exam, essay, oral examination etc.)

## ACADEMIC DISCIPLINARY ACTIONS

You should adhere to university policies on behavior, attendance in classes, and exam regulations. Students who fail to respect these regulations will be subject to a decision taken by a Disciplinary Committee. The applicable disciplinary sanctions may be, in addition to the cancellation of the grade of the concerned assessment, verbal and written warnings, cancellation of the grades of a whole semester, temporary exclusion from the university, dismissal, or any other decision taken by the Disciplinary Committee based on the severity of the violation.

## ACADEMIC TRANSCRIPTS

Once exam marks (for Contrôle Continu as well as Final Exams) are collated at Sorbonne University Abu Dhabi, these are then transferred to Paris and entered into the Apogée system (grading system used in France by Sorbonne Université and Université Paris Cité). Juries, composed of faculty, verify the grades, and finalize decisions for each major. As we are part of the partner Universities in Paris, your results will be verified along with Paris students, and the juries will meet according to the academic calendar followed by Sorbonne Université and Université Paris Cité. No result can, therefore, be communicated to students before the jury has been held in their major. Results and transcripts will be communicated to undergraduate students at the end of each semester. Postgraduate students may receive results and transcripts at the end of the academic year, depending on the calendar specific to their programme.

Once the final grades are received, the Admission Section at the Registrar uploads the transcripts and grades. Student with outstanding dues will not be permitted to view their grades. The Admissions section is able to assist you with your individual requests related to the transcripts.

Transcripts are in French and use a specific terminology. You may get in touch with your Programme Coordinator for an explanation on the terminologies used in the transcript. The transcripts indicate the grades you have obtained in each subject and the number of credits (ECTS) you have been granted (for Bachelor and Master programmes).

## CONSULTATION OF EXAM PAPERS

Students can consult their exam papers within a certain delay at the Exam Office, in the presence of the Professor and/or the Head of the concerned Academic Department. No other advocate may be present. The purpose of the meeting is to better understand the grading and the strengths and weaknesses of the submitted exam paper.

### COURSE / PROGRAMME EVALUATION

It is standard practice in any university to evaluate its course delivery. An online survey is

administered for every course taken at the university. It provides an opportunity for you to reflect on the learning and to make suggestions for improvement. Results are strictly anonymous, and no student names will be disclosed to any faculty or staff. Your feedback on each course is submitted through the Blackboard. In addition, you will be required to complete a Senior Student Exit survey at the end of your programme.

### EXCHANGE PROGRAMME

Sorbonne University Abu Dhabi welcomes exchange students from Sorbonne Université for either one or two semesters on a yearly basis. Exchange students join Sorbonne University Abu Dhabi in order to learn more about the UAE and its heritage, as well as to communicate with students from various backgrounds and learn more about different cultures.

The exchange programme is also open to SUAD students in L2 and L3 or at the Master level where you can spend a semester at Sorbonne Université in Paris. Application forms for an exchange semester in Paris can be obtained from the Enrollment and Registration Center, but this must be preceded by the approval of your Head of Department, who will review your academic results and your motivation. Payment of tuition fees as well as the administrative and academic registration are completed at the home university, while courses are attended in the host university.

### CREDIT TRANSFER

Whilst Sorbonne University Abu Dhabi is very committed to the satisfaction and retention of its students, we understand that sometimes you may, for personal or other reasons, opt to join another university or programme. Credit transfer occurs under two circumstances:

**Transfer within institutions following the ECTS system:** Transfers can occur within similar programmes. If the programme is entirely similar, there is no limit on the number of credits that can be transferred i.e., every credit acquired will count towards the award of the degree to which you are transferring. For example, you can enter directly the third year having completed the first two years of the same programme in another institution following the ECTS system. Where the transfer is to a different programme either within Sorbonne University or from another institution following the ECTS system, then credit transfer will be based on a comparison of common courses in both programmes. This is a case-by-case decision and there isn't a priori limit set on the number of credits that can be transferred. No transfer of credit is awarded for courses that bare no relationship to the courses in the programme that you wish to transfer.

Unlike the exchange programme, a transfer is a definitive relocation. If you wish to execute a transfer, contact the Admission Section at the Registrar, as well as your Head of Department. Please keep in mind that asking for a transfer involves administrative work and a lot of commitment, so ask for it only when you are ready to commit to your decision.

### SUSPENSION OF REGISTRATION AND RE-ADMISSION

Students may suspend registration during the course of study. In these circumstances, the Head of Department and the Registrar have to be officially informed. Earned credits and validated UEs are then held as per the European Credits Transfer System.

You may later want to ask for a readmission. In such cases, it is essential to inform as early as possible your HoD of your future plans, in order to organise the continuation of your studies in the best conditions. However, any request for readmission should be submitted for consideration of the Admission Panel. The Panel reserves the right to deny an application, especially if, over time, the structure of the curriculum has changed.

### WITHDRAWAL

To withdraw from the University, you must complete the Clearance Process through the Enrollment and Registration Center. The clearance process requires confirmation from all relevant departments (IT, Library, Labs, Finance, Student Visa Office etc.) that there are no outstanding items to return or fees to pay. Students will not be provided with their academic transcripts until the clearance process is completed. In case the withdrawal occurs during the semester, and within certain authorized periods, you may ask for a refund as per the Refund Policy. To be considered for readmission to the University later, you must apply through the Admission Section.

### DISMISSAL

The University may dismiss a student in case of lack of adherence to the academic, administrative and/or disciplinary rules of the University. Dismissed students are not entitled to any monetary refund. Find out more from the Student Code of Conduct by visiting the University Website:

<https://mk0sorbonneuniv9mcho.kinstacdn.com/wp-content/uploads/2020/08/SUAD-Student-Code-of-Conduct-2020.pdf>

Potential grounds for dismissal from the University may be because of the following reasons:

- non-payment of any outstanding tuition fees for the semester
- failure to provide the university with the documents proving you meet the standard required for admission; or to meet any other required conditions within the specified delay after being conditionally admitted
- personal or medical circumstances preventing you from attending, where there is sufficient

evidence that you are not able to attend or participate in the learning activities for an extended period of time

- » lack of attendance and/or disrespect of the Student Code of Conduct which leads to dismissal decided by the Disciplinary Committee

In the French system, all degrees follow a strict curriculum that arranges which topics you must follow, and for how many hours, in order to graduate. This curriculum is called the "maquette".

## MCC

The acronym MCC stands for "Modalités de Contrôle des Connaissances" and refers to a document which summarises the way in which assessments are organised throughout the year and during the exam session, as decided in the partner Universities in Paris.

## Visiting Professors

Most of the Visiting Professors are Professors or Associate Professors in Sorbonne Université or Université Paris Cité (Sorbonne Abu Dhabi's partner Universities) and come to Abu Dhabi specifically to deliver their course in an intensive two-week period. In French, they are also referred to as "missionnaires".

## Relevés de Notes

It is the French translation for "academic transcripts". In a transcript, the final result is given by a grade out of 20, which reflects the general average of the semester (all UE averages based on coefficients). The grade goes along with a short, written comment which can be: Admis (admitted) / Ajourné (not admitted) / Accès étape supérieure (you have not validated the year, but you're allowed to enter the higher level, as an AJAC student) / Compensé (Pass with compensation between UEs or semesters).

## Session

Each academic semester ends with an exam session (called normal or first session); January exams cover courses completed in semesters 1, 3 and 5 and May or June exams cover courses completed in semesters 2, 4 and 6. Additionally, another session (called catch-up/make-up or second session or second chance) is organised in mid or late June, which covers the resit exams for both academic semesters. Only courses and programmes assessed through final exams (CC+ CT or CT only) are concerned by the exam sessions.

## UE & EC

Stands for "Unités d'enseignement" (Units of teaching). UEs may be divided into sub-subjects called EC (Eléments constitutifs). An EC is usually one course or one subject.
